

PROFESSIONAL MAINTENANCE KIT

ASSEMBLY LUBE

EXTREME PRESSURE

TOYO-G™ assembly lube is for the pre-lubrication of engines, transmission, and differentials. While engine oil works while it's under pressure and warm, TOYO-G™ assembly lube does a much better job liberating cold and under high pressures like the initial startup of an engine or transmission.

- ✓ Use to pre lube bearings, cams, lifters, valve train
- ✓ Perfect For Engine Building
- ✓ Prevents Breakdown During Long Term Storage
- ✓ Give Your Car a Clean Slate
- ✓ Eliminates Dry Starts
- ✓ Prevents seizing, galling and scuffing
- ✓ Compatible with all oils
- ✓ Super slick and tacky
- ✓ Easy to use

PHYSICAL & CHEMICAL PROPERTIES

Propellant	Hydrocarbon
Appearance	Liquid
Odour	Petroleum
Structure	Smooth
VISCOSITY INDEX, ASTM D-2270	95-108
Timken OK LOAD	Excellent
Colour	Blue

PRODUCT APPLICATION

Engines need to be lubricated to run, and the lubrication process actually begins during assembly. TOYO-G™ assembly lube that's designed to be used when you're putting an engine together is a must-have product if you're bolting your own powerplant together.
